

About Cosmiqo

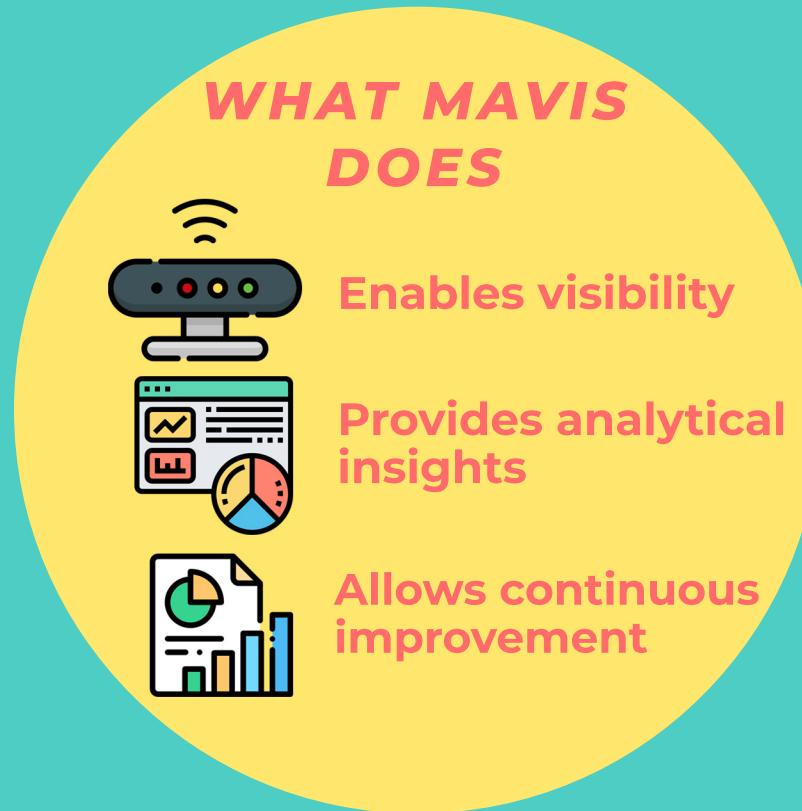

Cosmiqo enables intelligence for supply chains, logistics, manufacturing operations and smart cities. We build sensing and analytics platforms that amplifies your productivity.

Advantages

Cost effective, small yet powerful server for storing insights from sensors

Lightning fast data pipeline between sensors and analytics engine

MAVIS

MAVIS enables the Industry 4.0 journey by providing full visibility of operations through a resilient sensing backbone and powerful analytics platform.

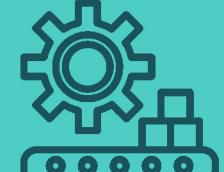

Applications

Warehouse

Logistics

Manufacture

Smart City
